SUMMARY

I am a Frontend-focused Software Engineer with 5 years of experience building fast, scalable, and user-friendly web applications. I specialize in React.js, Next.js, and modern frontend architectures, creating high-performing solutions with reusable component systems and seamless API integrations. Alongside frontend expertise, I have worked with PHP, CodeIgniter and Node.js for backend development, integrating APIs and managing data flow for full-stack solutions. My experience spans building production-ready features, optimizing performance, improving UI consistency, and collaborating across teams to deliver impactful digital products. I also incorporate AI tools into my workflow to refine development processes, validate ideas, and expand domain knowledge. Passionate about clean code, thoughtful system design, and creating engaging user experiences, I turn fresh ideas into reliable and innovative digital solutions.

EXPERIENCE

- **Ovex Technologies Pvt Ltd** Oct 2022 – Feb 2026
Full Stack Developer Islamabad, PK
 - Developed scalable web applications using React.js, Next.js, PHP (CodeIgniter 3/4), and Laravel
 - Built responsive and user-friendly interfaces using Bootstrap, Tailwind CSS, and HTML5
 - Converted complex UI/UX designs into production-ready, pixel-perfect implementations
 - Integrated frontend components with backend systems and REST APIs for seamless functionality
 - Optimized application performance by improving rendering, API handling, and backend queries
 - Designed and developed reusable components to ensure consistency across multiple modules
 - Collaborated with cross-functional teams including designers and backend developers in agile workflows
 - Debugged production issues and enhanced application stability and user experience
 - Ensured cross-browser compatibility and responsive behavior across devices
- **Alpha Squad Software** 2022
Frontend Developer Islamabad, PK
 - Implemented pixel-perfect user interfaces from Figma designs
 - Developed reusable React components to accelerate development
 - Resolved layout and responsiveness issues across multiple devices and browsers
 - Contributed to improving frontend consistency and styling architecture
- **Fiverr** Jun 2021 – Present
Full Stack Developer Remote
 - Delivered Multiple Front End full-stack web applications using React, Nextjs Node.js, and modern tech stacks
 - Designed scalable backend architectures and RESTful APIs
 - Worked with international clients to deliver high-quality, customized solutions
 - Maintained strong client satisfaction through timely delivery and clear communication
- **Monarch Team** Part-time
Frontend Developer (React.js) Remote
 - Led end-to-end frontend development using React.js for multiple web applications

- Built and maintained scalable, responsive user interfaces and reusable components
- Collaborated with backend teams to integrate APIs and ensure seamless functionality
- Improved UI/UX consistency and optimized frontend performance across projects

Remote
UK-Based

▪ **OEX Labs**

Frontend Developer

- Developed modern, high-performance frontend applications using React.js and Next.js
- Translated UI/UX designs into clean, maintainable, and scalable code
- Built reusable components and optimized application performance
- Collaborated with distributed teams to deliver production-ready features

PROJECTS

▪ **Islamabad Tea Company**

islamabadtea.com

- Full-stack web application using CodeIgniter 4 (CI4)
- Developed responsive frontend UI and backend logic for product, user, and business operations
- Integrated APIs and database operations for efficient data flow
- Built scalable modules for real-world business workflows

▪ **PSEB Platform**

pseb.gov.pk

- Enterprise Laravel web application
- Developed responsive frontend interfaces and integrated backend APIs
- Worked on database handling and real-world application workflows
- Collaborated with team to build a scalable and user-friendly system

▪ **Empx (Beta)**

beta.empx.io

- Token-based web application using React.js
- Built scalable frontend architecture with reusable components
- Integrated APIs for dynamic token-based data and real-time updates
- Improved user experience across modules with optimized state management and UI flows

▪ **MyTrip.pk**

mytrip.pk

- Travel platform using Laravel
- Developed responsive and user-friendly frontend interfaces
- Integrated backend APIs and MVC structure
- Enhanced UI structure, navigation, and cross-device compatibility

▪ **ArtBridger**

artbridger.vercel.app

- Modern web application built with Next.js
- Developed high-performance frontend with reusable components
- Integrated APIs for dynamic content and seamless frontend-backend interaction
- Improved UI/UX with clean design patterns and responsive layouts

▪ **Godwin Austen**

godwinausten.co.uk

- UK-based company website

- Worked on frontend development with responsive layouts and UI improvements
- Contributed to backend integration where required
- Delivered production-ready features following international standards

- **Liberty Books**

libertybooks.com

- E-commerce platform enhancements using CodeIgniter and Bootstrap
- Developed responsive frontend features
- Improved layout structure and overall user experience

- **Laws of Pakistan**

lawsofpakistan.online

- Legal information platform using CodeIgniter and Bootstrap
- Developed frontend features and UI enhancements
- Improved content structure, consistency, and accessibility

EDUCATION

UOS

Bachelor of Software Engineering (GPA: 3.07)

2016 – 2021

Islamabad, PK

SKILLS

- **Languages:** JavaScript, TypeScript
- **Frontend:** React, Next.js, Angular, Nuxt.js, Tailwind CSS, SCSS/SAAS, Material UI, Chakra UI, shadcn/ui
- **Backend:** PHP, CodeIgniter, Laravel, Node.js, Express
- **Databases:** PostgreSQL, MySQL, MongoDB
- **Tools:** Docker, GitLab CI/CD

CERTIFICATIONS

- Fundamentals Certified Mega It
- Frontend Developer Mega It
